Subject: junk folder and RMSS
Date: Wednesday, October 20, 2010 2:43:42 PM

I've received information that some employees did not receive timely notice regarding the scheduling of their testing under RMSS. The problem turned out to be that the email notice sent was sent to the individual's 'Junk email' folder.

Please spread the word and send to your email lists that our members should ensure that

usps_support@panpowered.com

is a safe sender or be sure to also check in their junk email folder when expecting a response from the RMSS.

Thanks,

Steven G. Raymer
Director, Maintenance Division
